3 members

FRONTEND RESPONSIVE PAGE

It is simple front-end web page combines HTML, CSS, and Bootstrap to create a responsive and visually appealing user interface. It includes essential elements like a header with a navigation bar, images, buttons, cards, a logo, and a footer. These elements work together to provide a cohesive and user-friendly web experience.

DURATION:

2 days

PERSONAL PORTFOLIO

This is an HTML, CSS and Bootstrap document for a personal portfolio website. It includes sections for personal information, skills, education, certificates, projects, and interests. The styling consists of various background colors and fonts, and there are also social media links and a downloadable CV button. Additionally, it provides detailed project explanations with images in a container with the option to zoom in on images. The website design is responsive and visually appealing.

DURATION:

2 days
